BALDWIN COUNTY SEWER SERVICE, LLC.

clean and simple

www.baldwincountysewer.com

The health of our rivers, streams and bays greatly impacts the property values and desirability of Baldwin County. Public sanitary sewer is better for overall water quality than septic tank systems. This includes the water you drink, swim and fish in. With that in mind, Baldwin County Sewer Service is offering incentives for residents and businesses to connect to our sewer system. If your house, business or church is on a road serviced by our line, you qualify for discounted installation.

Switch To Sewer
